THANK YOU!

Initiatives

Promoted Communication on Learning Technologies

- Developed *Tech Talks* on Senate Dashboard to highlight faculty using learning technologies in effective ways
 - January: Devi Davis-Strong, *TopHat*
 - February: Rob Gray, Podcasting
 - April: Steve Salik, Mary Lou Fulton Teacher's College, *Adobe Creative Cloud Express*
- Partnered with Learning Experience (UTO- Kyle Bowen) to provide updates on key learning technologies in Senate Reports and Senate Dashboard including the Qualtrics to QuestionPro and Media Amp to MediaPlus transitions.
- Provided strategies for managing academic integrity issues

Future Interests

- **Advisory Opportunities: Outcome:** In progress
 - Interest in a mechanism for engaging faculty/APs in decision-making on teaching and learning.
- **Peer Training Options: Outcome Progress**
 - What options exist and can be enhanced to provide peer training for faculty on pedagogy and learning technologies?
 - Interests in peer training on academic integrity plus General Counsel summary of rights of the faculty member and the student vis-à-vis the sites such as Quizlet, etc.
- **Research Computing and Data Security:**
 - Concerns about the variable approaches to data security and computing and use of ***Beyond Trust Jump Client***.
 - Concerns about the “current gap in secure data storage” and the issues it causes for data on vulnerable populations. Is there or does there need to be a Senate Liaison on the Research Computing and Governance Committee?
