Welcome to the Leadership in Business Certificate!

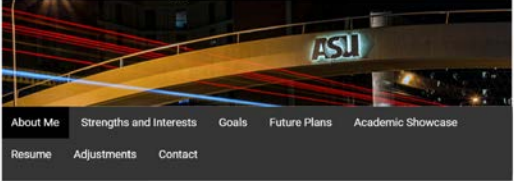

Please bookmark the ASU ePortfolio resources for additional training and support

More importantly though, this ePortfolio also functions as a tool for you to share your experiences and competencies with future employers or business opportunities.

This is the TEMPLATE for the ePortfolio - you can copy this, personalize it and then add your experiences as you complete them. Below is the process for copying this template as well as helpful instructions to edit your ePortfolio. Once copied, you will need to delete this text and the instructions from your ePortfolio. The sections are already laid out - one for each experience. You should rename those to better reflect your experience (i.e. Internship with Coke, Study Abroad in Spain, etc.) and then add content to each section page.
