

Open Access at ASU

Helene Ossipov

Stakeholders

- ABOR
- OKED
- Libraries
- ASU Faculty
- Funding agencies

What is affected?

- Journal articles
- Syllabi, course notes, BB shells, etc. are already owned by the university

Proposal

- Faculty at ASU grant the university a license to make their work freely available;
- License is affirmed when Faculty sign their yearly NoA;
- Copyright is not transferred to ASU; author or journal retains copyright;
- Final, clean, accepted copy (not formatted by journal) is placed in ASU repository;
- Waivers of the license may be requested and must be granted;
- Works in the repository may be embargoed;
- Working with other university partners, the Libraries will work out a simple method for adding works into the repository.

Why are we doing this?

- Policy is statement of principle
- ASU's mission
